EXPERIENCE

Epic Systems Corporation • QA & UX Analyst

July 2015 - July 2018 • Verona, WI

- Facilitated dozens of remote and in-person usability tests (including task-based testing, A/B testing, and card sorts) for cardiology enhancement projects
- Led design discussions and made sure each project underwent multiple stages of iterative testing

PROJECTS

Muse • Web and Android Prototype

A high-quality photo sharing and organization app concept design.

- Discovered user goals via surveys, personas, and stories
- Created low- and hi-fi mockups and crafted prototypes using Figma and InVision.

EDUCATION

University of Maryland, College Park

2011-2015

Bachelor of Science Finance, Art History Minor

Bloc

2018 - present

UX/UI Design and Front-End Development
Apprenticeship
